

# TRU

safety without compromise

disk brake pads

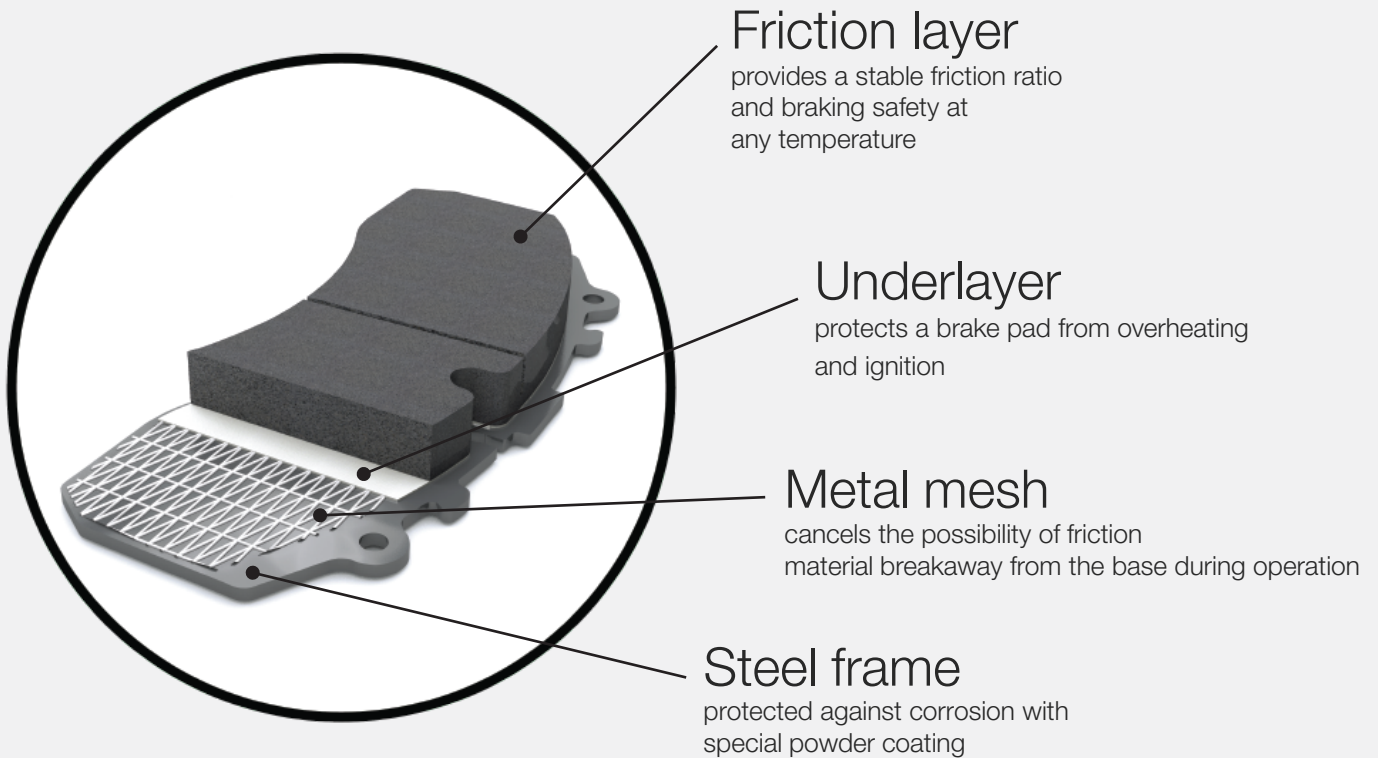

for commercial vehicles

90%

applicability

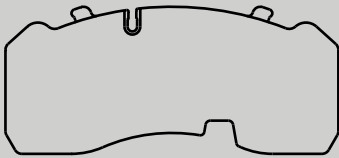

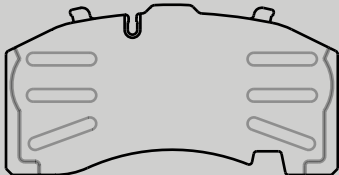

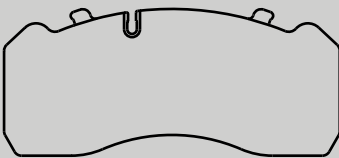

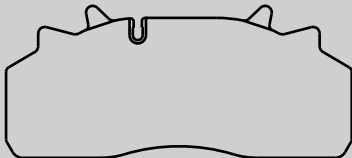

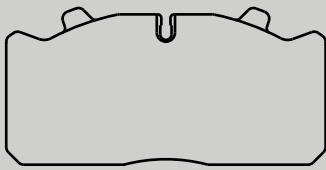

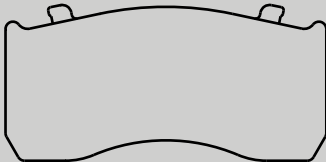

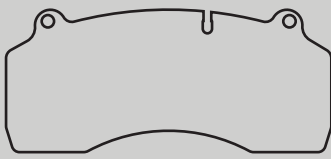

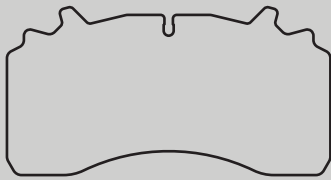

Disc brake pads of TRU brand are used for foreign commercial vehicles (trucks, buses). When manufacturing pads, high-quality materials and modern technologies are used. This ultimately allows us to create a reliable product that meets all international requirements

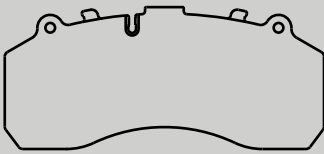

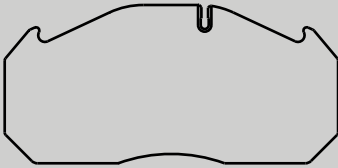

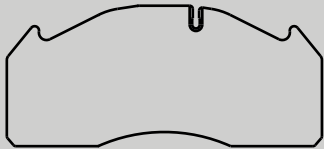

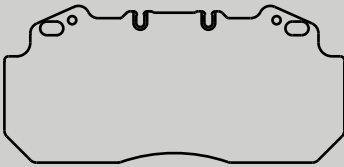

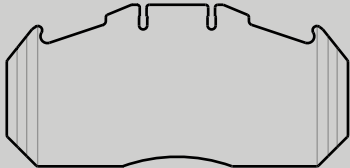

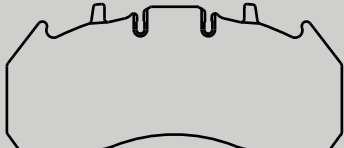

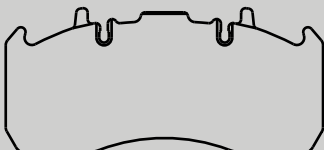

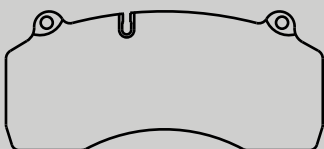

## Independent laboratory "Eurotest"

All tests of disk brake pads are conducted using dynamometric test stand TECSA TTR2600 which simulates real world conditions
